

TRANSMISSION POLE REINFORCEMENT

Part # TPR48S – S-M-L-ExL

Part # TPR72S – S-M-L-ExL

(PATENTED)

www.polelifesystems.com

FOR LARGER SCALE POLE DAMAGE  
CAUSED BY WOODPECKERS, CRACKING, ETC.

9" to 16" Diameter Wood Poles.  
Stocked 48" & 72" lengths, can be custom made  
to any length or diameter.

TPR48/72 S – S for 9" to 11" diameter poles.  
TPR48/72 S – M for 12" to 13" diameter poles.  
TPR48/72 S – L for 14" to 15" diameter poles.  
TPR48/72 S – Ex L for 16 to 17" diameter poles.

- Large Diameter Wood Poles – A 2-Part galvanized 1/8" steel reinforcement installed over the damaged area which brings the pole back to almost full strength. This prevents total pole replacement for minor woodpecker or storm damage. No foam, wrap or glue required.

\*Bolts and hardware  
Not included.

Weight per part ½ set:  
TPR48S-S: 31 lbs. each  
TPR48S-M: 34 lbs. each  
TPR48S-L: 40 lbs. each  
TPR72S-S: 46 lbs. each  
TPR72S-M: 51 lbs. each  
TPR72S-L: 60 lbs. each
